

22nd February 2024

During my year as President of SLCC I met many Town and City Clerks, particularly when I attended the IIMC Conference in Minneapolis. Most were interested in the similarities and differences between our roles, and took the time to share experiences.

The stand out for me was Camilla Pitman who not only took time out to explain the format and purpose of the Athenian Dialogue programme but went on to spend more time understanding my role as President and the way in which Town and Parish Clerks operate in the England and Wales, while sharing her own experiences.

We have continued this sharing and supportive dialogue over Zoom and spent many hours in conversation during the Study Abroad tour.

I have been impressed by her commitment to support and mentor her fellow clerks, explore the world of clerks outside of North America and make a difference wherever she goes.

I have no hesitation in offering her my personal endorsement as candidate for Vice President of IIMC and hope that you will also offer her your support.

Linda Carter

Immediate Past President of SLCC
