

Camilla Pitman has been a strong, reliable presence here in Region One. I can't remember any past IIMC vice presidential candidate ever spending as much time getting to know as many IIMC members as Camilla has. For the past several years, before she became a candidate, Camilla put in a lot of time and effort to travel to all our regions, ensuring that everyone had the opportunity to get to know her.

Very often the IIMC candidate information appears in our inbox and most members are probably like me, wondering "who are these people?" We read their campaign ads, websites, literature, social media and still wonder who they really are and what they are like. Not true with Camilla! She has met with and conversed with so very many of us. Camilla is someone we feel we know well, because she has made every effort to make that happen through the years.

I wish Camilla the very best of luck towards becoming the next IIMC Vice President and hope she will continue to stay close to us here in Region One!
